

Sea Nymph® '96

When Fishing Comes First™

We Take Your Fishing As Se

If your idea of a good time is rising well before the sun, drinking coffee from a thermos and making your first cast just as dawn breaks, then you're our kind of person. You see, at Sea Nymph®, fishing comes first. We crave those mornings just like you do. And, we build our boats with the attitude that, if it doesn't help you catch more fish, it just doesn't belong.

It's this attitude that's made our popular deep-V Fishing Machine™ line the standard for today's aluminum fishing boats. Likewise, our Great Lakes Series has been tried and proven by recreational and professional fishermen alike. Add to that a complete lineup of jon bass, panfish, backtrollers, pontoons and deckboats, and you're looking at one of the widest selections of aluminum fishing boats afloat today. All with the most important fishing features, the best layouts, quality construction and top value.

riously As You Do

Sea Nymph: The Choice Of Those Who Put Fishing First

In the world of fishing, few have travelled and fished as extensively as Dan Gapen. From boyhood with his father through adult life, Dan has fished over 5,000 lakes, rivers and streams for dozens of species of fish, and taught thousands how to better enjoy the sport as a longtime sport show and seminar speaker.

Here are some thoughts from a man who has always put fishing first, and sees Sea Nymph as a company that does the same.

**DAN D. GAPEN SR.: AUTHOR, OUTDOOR
WRITER, FISHING LURE INNOVATOR,
FISHING HALL OF FAME**

"I grew up fishing walleye, salmon, catfish and everything in between. And usually from very basic, sound boats with low to medium horsepower engines. That's what impressed me about Sea Nymph. They offer a very complete line of good, basic models and build them with the fisherman in mind—with all the most important features. They have good, functional layouts, too, and they're built by "real people" who know fishing. Sea Nymph is, without question, the best aluminum fishing boat for the money I've seen on today's market. From the factory and its people to the product they put out, it's like they say, Fishing Comes First. I think you'll like them too."

Good Fishing!

Dan Gapen Sr.

Your Most Important Piece Of

A DOUBLE-RIVETED HULL SEAMS

Hull seams on our Deep V models are double riveted adding strength and durability to potential high-stress points on the hull.

B V-TECH HULL

Our exclusive V-Tech™ hull designs have wide, reverse chines for a dry ride and exceptional stability underway or while fishing.

C MOLDED HELM CONSOLES

Durable, molded helm consoles accommodate optional instrument packages, AM/FM stereos and added fishing electronics.

D TUF-DECK™

Exclusive Tuf-Dek™ aluminum floors and casting decks combine high structural strength and light weight, and are especially resistant to ever-changing climatic conditions.

E LIVEWELLS

Roomy tournament-class livewells are rounded and aerated with timers to keep your catch lively. Dividers keep bait and/or catch separated. Carpeted tempered aluminum hatch lids are insulated and seal securely.

F FORMED-IN KEELS AND EXTRUDED CENTER KEEL

Our rounded, extruded center keel is stronger than typical v-shaped keels and adds structural integrity to the hull. Formed-in keels on sides and bottom of our jon boats distribute loads more evenly for improved tracking and planing.

G ROD STORAGE

Locking rod storage on many models accommodates even larger rods, keeping them secure underway and when trailering.

H EXTRUDED RIBS

One-piece extruded rib construction offers superior strength over the more common method of multiple rib pieces welded together. Extruded aluminum adds strength and reduces weakening due to stress.

f Fishing Equipment

Outboard Power That's Second To None

Only OMC Offers
System Check™
The Ultimate Early Warning
System For Your Engine

When you buy a
Sea Nymph, you get
full-featured Evinrude®
and Johnson® power with
OMC's exclusive System

Check engine monitoring

system. System Check is the ultimate in
operator early warning systems.

Just like in your car, a special gauge
alerts the operator with both a horn blast
and appropriate warning light for four
key engine performance areas: no oil,
overheat, restricted fuel flow and low oil.

This effectively forewarns you to
problems, helping keep damage to a
minimum and helping your servicing
dealer diagnose the problem. Only
Evinrude and Johnson outboards offer
System Check, and a host of other
premium features. This gives you
full featured outboard power nobody
else can match. Sea Nymph offers
System Check standard on all
remote-steer models.

*Standard on all remote-steer models 9.9hp and
over plus 40, 50, and 60hp tiller models.

I LOWRANCE FISH FINDER

Many models feature a premium
Lowrance® X-22A fish/depth finder
offering depth capability to 350',
selective fish I.D. system and multiple
zoom ranges.

J PEDESTAL SEATS

Our Everlast™ furniture backs
and bases are constructed of low
density polyethylene. This adds
structural strength, is light weight
and will NEVER rot or become water
damaged. Seat back cushions are also
removable for easy storage away
from the elements.

EVERLAST™
COMPONENTS

K PULL OUT DRINK/LURE TRAYS

Handy pull-out drink and lure
trays on our pedestal seats keep your
favorite tackle (and beverage) close at
hand and easy to get to.

L ELECTRIC TROLLING MOTOR

Many Sea Nymph models come
with standard Evinrude or Johnson
electric trolling motors. Where this
is an option, your Sea Nymph is
pre-wired with a harness to accept
12 or 12/24 Volt motors depending
on the model.

M TRAILER

A quality Shorland® trailer com-
plete with a 5-year warranty is included
with all Sea Nymph fishing models.

SP 240 Family Sport

- (top left) Helm console features storage for a removable 34-quart cooler. ■ (top right) Convenient pop-up privacy enclosure provides a place to change after an afternoon swim.
- (bottom left) Comfortable aft sundeck is a great place to relax and take in the sun.
- (bottom right) L-shaped stern lounge with storage beneath wraps around a pedestal-mount table. A great place for a snack or meal.

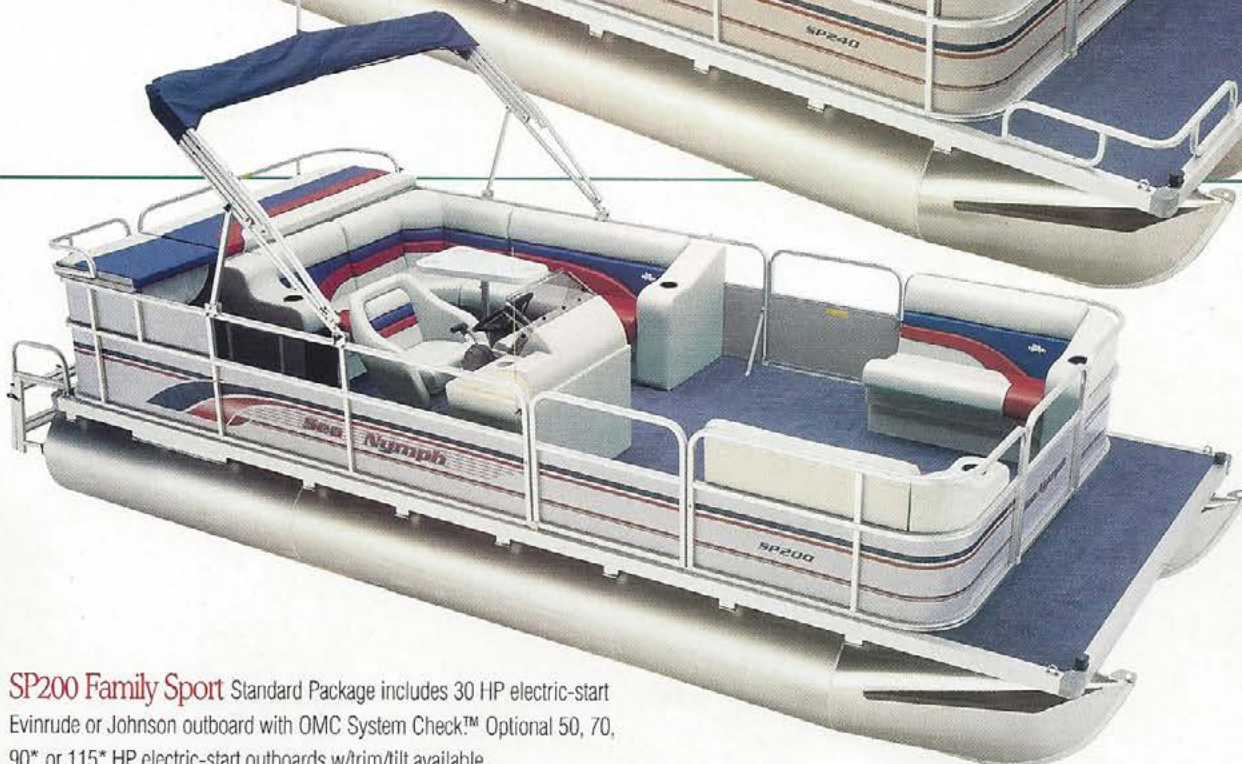

XL Performance Package:

A specially-designed center log with integrated aluminum motor pod and our special Wave-Tamer™ under-deck spray shield, pump up the performance of these pontoons. Enjoy increased speed, a smoother ride in choppy water and improved planing and handling. The XL package also increases the boat's horsepower rating for added skiing/towing capacity.

SP240(XL) Family Sport Standard Package includes 30 HP electric-start Evinrude or Johnson outboard with OMC System Check™. Optional 50, 70, 90, 115 or 150 HP* electric-start outboards w/trim/tilt available.

The Harbor Security™ Plan: The Security You Deserve

The Harbor Security Plan gives owners of Sea Nymph® boats the added assurance they deserve against costly, unexpected boat repairs.

The Harbor Security Plan is designed and backed by the OMC Aluminum Boat Group specifically for owners of our products. We understand your purchase is an expression of trust in us, so we stand behind every boat we build. It's our way of letting you know we'll be there when you need us. With experience, service and an unmatched commitment to customer satisfaction. Ask your authorized Sea Nymph® dealer for details.

Thank you for your interest in Sea Nymph® boats, and
Welcome Aboard!

Your Sea Nymph Dealer Puts Your Fishing First

Our past customers have told us a major factor in their decision to purchase a Sea Nymph was their local dealer. That's why we've always been picky about the kind of dealer we choose to represent us. Service tops the list. If a dealer doesn't have a strong service commitment and the facilities to satisfy customer needs, he/she doesn't deal Sea Nymph. Period.

We've got over 220 servicing dealers across North America, in the largest cities, and the smallest towns. Knowledgeable, trained and committed to continuing the Sea Nymph tradition of putting more value and satisfied fishing customers on the water.

For your **Free Issue of In-Fisherman®** magazine
with our compliments, call
