We Take Your Fishing As Seriously As You Do

A silhouette of a fisherman wearing a cap and holding a fishing rod, standing on the deck of a boat. The background is a bright orange and yellow sunrise over a body of water. The boat's interior lights are visible through the windshield.

You're wide awake, yet it's well before sunrise. There's a nip in the air but your thermos of coffee chases the chill away. The water is calm and still. Finally, some ripples appear... they're from your first cast which comes right about the time dawn breaks. It's the perfect day.

You see, at Sea Nymph we crave those mornings, just like you do, and we build our boats with those mornings in mind. We believe a great fishing boat should add to the experience and make your time on the water more productive.

It's this attitude that's made our popular Deep-V Fishing Machine's® the standard for today's aluminum fishing boats. They've been tried and proven by both recreational and professional fishermen alike. Add to that a complete lineup of jon bass, crappie catcher, side consoles and backtrollers, and you're looking at one of the widest selections of aluminum boats afloat today.

They're fishing boats that go one step further than the rest, offering professional fishing features, quality construction, and comfortable, workable layouts. It's a great combination that adds up to successful outings, and more importantly, a great value.

Sea Nymph: The Choice Of Those Who Put Fishing First

In the world of fishing, few have travelled and fished as extensively as Dan Gopen. From boyhood, fishing with his father, through adult life, Dan has fished over 5,000 lakes, rivers, and streams catching dozens of species of fish. As a longtime sport show and seminar speaker, Dan has also shared his knowledge, teaching thousands how to better enjoy the sport. Dan is a man who has always put fishing first.

That's probably why he understands Sea Nymph so well.

DAN D. GAPEN SR.: AUTHOR,
OUTDOOR WRITER, FISHING LURE
INNOVATOR, FISHING HALL OF FAME

"I grew up fishing walleye, salmon, catfish, and everything in between. And usually from very basic, sound boats with low to medium horsepower engines. That's what impressed me about Sea Nymph. They offer a very complete line of good, basic models and build them with the fisherman in mind—with all the most important features. They have good, functional layouts too, and they're built by "real people" who know fishing. Sea Nymph is, without question, the best aluminum fishing boat for the money I've seen on today's market. From the factory and its people to the product they put out, it's like they say, Fishing Comes First. I think you'll like them too."

Good Fishing!

Dan Gopen Sr.

Your Most Important Piece O

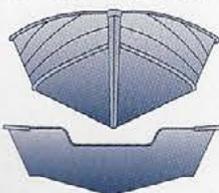

A DOUBLE-RIVETED HULL SEAMS

Hull seams on all Deep V models are double riveted adding strength and durability to potential high-stress points on the hull.

B V-TECH HULL

Our exclusive V-Tech™ hull designs have wide, reverse chines for a dry ride and exceptional stability underway or while fishing.

C MOLDED HELM CONSOLES

Durable, molded helm consoles accommodate optional instrument packages, AM/FM stereos and extra electronics.

LIFETIME IRON CLAD WARRANTY

Any plywood used is pressure-treated and features a Lifetime Limited Ironclad Warranty.

LIMITED LIFETIME
IRON CLAD
PLYWOOD WARRANTY

D LIVEWELLS

Roomy tournament-class livewells are rounded and aerated with timers to keep your catch lively. Dividers keep bait and/or catch separated. Carpeted tempered aluminum hatch lids.

EXTRUDED RIBS

One-piece extruded rib construction offers superior strength over the more common method of multiple rib pieces welded together. Extruded aluminum adds strength and reduces weakening due to stress.

E ROD STORAGE

Locking rod storage on many models accommodates even larger rods, keeping them secure underway and when trailering.

F PULL OUT DRINK/LURE TRAYS

Handy pull-out drink and lure trays on some pedestal seats keep your favorite tackle (and beverage) close at hand and easy to get to.

f Fishing Equipment

EVINRUDE
OUTBOARDS

Johnson
OUTBOARDS

FM 170
See Page 9 for additional information.

G LOWRANCE FISH FINDER

Many models feature a premium Lowrance® X-22A fish/depth finder offering depth capability to 350', selective fish I.D. system and multiple zoom ranges.

H PEDESTAL SEATS

Our Everlast™ furniture backs and bases are constructed of low density polyethylene. This adds structural strength, is light weight and will NEVER rot or become water damaged.

I ELECTRIC TROLLING MOTOR

Many Sea Nymph models come with standard Evinrude or Johnson electric trolling motors. Where this is an option, your Sea Nymph is pre-wired to accept 12 or 24 Volt motors depending on the model.

TRAILER

A quality Shorland™ trailer complete with a 5-year warranty is included with all Sea Nymph fishing models.

Outboard Power That's Second To None

Only OMC® Offers System Check® - The Ultimate Early Warning System For Your Engine

OMC SYSTEM CHECK
Outboard Early Warning System*

When you buy a Sea Nymph, you get full-featured Evinrude® or Johnson® power with OMC's exclusive System Check engine monitoring system. System Check is the ultimate in operator early warning systems. Just like in your car, a special gauge alerts the operator with both a horn blast and appropriate warning light for four key engine performance areas: no oil, overheat, restricted fuel flow and low oil. This effectively forewarns you to problems, helping keep damage to a minimum and helping your servicing dealer diagnose the problem. Only Evinrude and Johnson outboards offer System Check, and a host of other premium features. Sea Nymph offers System Check standard on all remote-steer models.

*Standard on all remote-steer models 9.9hp and over plus 40, 50, and 60hp tiller models.

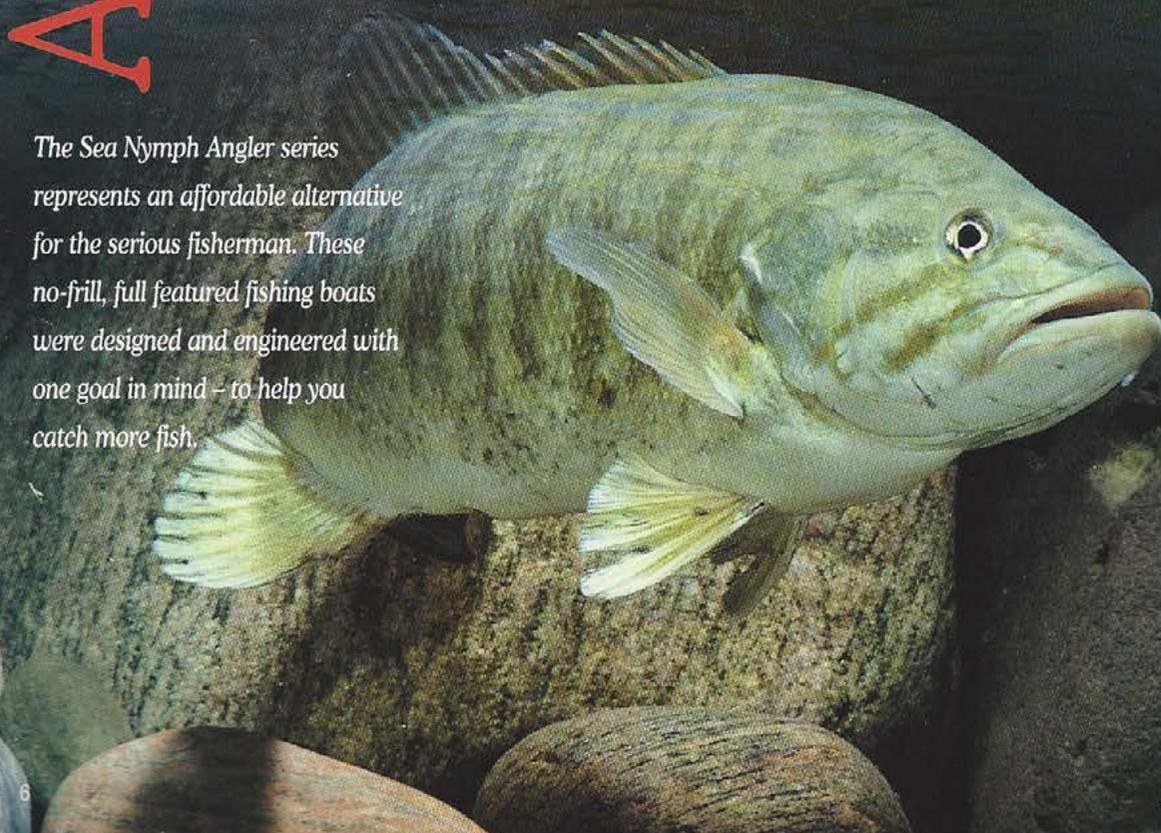

Each Sea Nymph boat is built by a highly skilled team of craftsmen dedicated to your satisfaction. The PDQ™ symbol represents our company wide commitment to providing products with exceptional quality, performance and value.

EVERLAST™
COMPONENTS

All models shown with optional equipment. See dealer for complete information.

Angler™ Side Consoles Deep-V's

The Sea Nymph Angler series represents an affordable alternative for the serious fisherman. These no-frill, full featured fishing boats were designed and engineered with one goal in mind - to help you catch more fish.
